

Xiong Zhiyuan

UX / Product Management / Visual Design

xiongzhiyuan1027@163.com · Portfolio: zhiyuan-portfolio.pages.dev

Designer working across environmental design, digital media, and interactive experiences. I connect user context, product goals, and visual expression through flows, prototypes, spaces, and moving images.

Education

University College London · Bartlett

Design for Performance and Interaction · Master's programme

Huazhong University of Science and Technology

Environmental Design · Undergraduate · Sep 2021–Jun 2025

Experience

SPRING / Bone Series · Design collaboration · Apr–Sep 2025

Collaborated with nextone111 on identity, visual language, 3D jewellery, and production adaptation.

Shenzhen Tuding Culture Media · Digital media design intern · Jul–Sep 2024

Contributed graphics, video, animation, and visual content for web, mobile, and social media.

Traditional tea culture research · Student innovation project · Mar 2023–Apr 2024

Organised research and teamwork, exploring AR/VR presentation and application interfaces; the research project was completed.

Selected projects

The Big Bang Stigma · XR / Interaction · Collaborative project

Translated illness-stigma research into identity, recruitment, and livestream scenarios; contributed interaction and visual design.

Blind Dating Market Festival · Interactive narrative / 3D environments

Six connected scenes explore self-presentation, matching, and social judgement through narrative concepts, environment visuals, and interaction rules.

Poisonous Mushrooms · Music video / Mini-game · Commercial collaboration

Contributed concepts, environments, and storyboards; designed promotional mini-game gameplay and assets; contributed grading and visual consistency.

Skills & tools

Experience: problem framing, user flows, information architecture, interfaces, prototypes. Figma / Adobe XD.

Visual: brand language, storyboards, film, visual consistency. Photoshop / Illustrator / Procreate / After Effects / DaVinci Resolve.

Spatial: 3D modelling, spatial narrative, interaction exploration. Rhino / Blender / C4D / TouchDesigner / Unreal Engine.
